BOOTCAMP BERLIN – October 13 & 14, 2011, Ritz Carlton Hotel, Berlin (Germany)

Dear Mr. Van der Meijden,

We hope this letter finds you in good health.

AGT MD will be launching a series of newly designed intensive, specialised training boot camps for clients in MEA and South East Asia. These programmes allow you to endorse your solutions and provide hands-on training, as well as have face-to-face interaction with over 20 LEA.

You may choose to sponsor a training Lab of 8 to 12 available seats for two days. You can take this opportunity to provide Clients and Participants with necessary information and hands-on training, as well as better understand their needs and give them solutions in the open one-on-one sessions.

The training boot camps will take place at the Ritz Carlton Hotel in Berlin, a prestigious address in the heart of the city, located on Potsdamer Platz, Berlin, Germany, on October 13 through to October 14, 2011. The programmes include two days of hands-on trainings, meal and snack breaks and a river tour featuring the excellent catering of the Ritz Carlton Group. After the boot camp, the team will join AGT at the Milipol Paris 2011.

At the end of the training, you will have the chance to place a POC on client side, as well as receive a certificate for the successful conduction of the training sessions. We aim to make these sessions a truly engaging experience featuring workshops by top experts in the following fields:

Forensics	**Encryption**	**Interception**
• Network Forensics	• Data Leakage prevention	• Massive and Passive Technology
• Mobile Forensics	• Latest Encryption methodology	• Challenges and solutions for Social Networking
• Computer Forensics		• GSM Passive, Technology methodology
• Password recovery		

Special topics include:

- Responsive jamming fix and mobile
- Source code review: how it is done, detecting backdoors in LI systems and other applications
- How to insert Trojan viruses on Mobiles (not for commercial applications)

These sessions will expand your network of decision makers who want to know more about latest technology, as well as get you in touch with highly qualified technical professionals.

Due to the limited availability of Labs, we encourage you to send in your confirmation no later than July 30, 2011 to bootcamp@agt-technology.com to get the final AGENDA from us.

For inquiries or assistance in availing of the special AGT rate for hotel bookings and visa processing, please do not hesitate to call us.

With my best regards,

Dr.

For more information on the venue and the hotel, you can get a glimpse to the following website
