

10 August 2017

Dear Mr. ... ,

Thank you for the clarification. LinkedIn is committed to keeping our members' data safe and secure, they take this commitment very seriously. In order to keep their members' data safe, they do not permit the use of software that scrapes or copies information from LinkedIn under the User Agreement. LinkedIn has technical measures and defences in place to protect against the use of any such tools on the platform, and constantly working to improve them. If any violation of the User Agreements is uncovered or reported, LinkedIn will investigate and take appropriate steps to address any violations.

Best,

...
