Hi Anas,

Thank you for the update. Please find my remarks below:

* We will travel to KSA on Friday 30 November, changing our flight schedule is not possible. We think this is not a problem since we can set up our Data Diode display and banner in 5 minutes time on Monday morning. We do require a table or something to put our Data Diode display on, that is all. Is the fair now till December 4th? Originally it was till December 3rd and we would fly to Egypt in the evening.

* We're not happy that the Cairo workshop is cancelled, we have already bought the tickets. We will have to spend another extra EUR 500 on new tickets. Please please make sure that there are no more changes in the schedule. We bought many unusable tickets for this trip which is very, very hard to sell for me at Fox-IT. We've booked the following flight with Royal Jordanian:

RJ 703 05/12 16:00 17:15

* Can you please ask Ellen to change our hotel reservations to fit with the new schedule (no Egypt, so stay in KSA until December 5).

* Please find the Data Diode presentation attached. You're free to add the AGT logo where you want it to be placed!

* Company profile:
