REMOTE CONTROL SYSTEM
GALILEO

Product Training

VERSION
1.4

Purpose

This document consists of 11 sections that aim to provide the minimum and mandatory information for the proper use of RCS Galileo.

The training is intended to be provided during RCS Galileo delivery operations, held at the client's premises.

According to client's product license, one or more sections of this training may be not available for client's installation: these sections (4, 7 and 9) will be eventually skipped.

Section	Type
1. System Installation and Configuration	Mandatory
2. Accounting Management	Mandatory
3. Operations Management	Mandatory
4. Intelligence Management	Optional
5. Factories Configuration	Mandatory
6. Agents Deployment	Mandatory
7. Network Injector Management	Optional
8. Dashboard Management	Mandatory
9. Alerting Management	Optional
10. System Maintenance	Mandatory
11. Support Portal	Mandatory

Topics

1. Systems Installation and Configuration

- Network Configuration
- Servers Installation
- Console Installation
