How to install the release

This release can be installed only over a previous 9.1.x release. You cannot upgrade directly from 8.x.x
It is still possible to install it from scratch (no previous RCS installation on the system).

9.2.0 specific instruction for upgrading form 9.1.x:

• Run the installer rcs-setup-*.exe on the backend server and answer 'yes' when asked to upgrade.
   If you have multiple shards, install the update on all the shards first and then on the master node.
• Run the installer rcs-setup-*.exe on the frontend server and answer 'yes' when asked to upgrade
• If you are using the OCR module, please reinstall it on all the shards after the upgrade.
• There are important changes about Anonymizers chains, please contact HT to have assistance.
