

## How to install the release

This release can be installed only over a previous 9.4.x release.  
It is still possible to install it from scratch (no previous RCS installation on the system).

### 9.5.0 specific instruction for upgrading form 9.4.x:

- Run the installer rcs-setup-\*.exe on the backend server and answer 'yes' when asked to upgrade.  
If you have multiple shards, install the update on the master first and then on all the shards.  
Before upgrading the shards, check that the master is up and running.
- Run the installer rcs-setup-\*.exe on all the frontend servers and answer 'yes' when asked to upgrade
- If you are using the OCR module, please reinstall it on all the shards after the upgrade.

## What's new in Remote Control System 9.5
