ISS World® Latin America

Intelligence Support Systems for Lawful Interception, Criminal Investigations and Intelligence Gathering

24-26 JULY 2012 • BRASILIA, BRAZIL

ISS World Latin America is the world's largest gathering of Latin American Law Enforcement, Intelligence and Homeland Security Executives as well as Telecom Operators responsible for Lawful Interception, Hi-Tech Electronic Investigations and Network Intelligence Gathering.

ISS World Programs present the methodologies and tools for Law Enforcement, Public Safety and Government Intelligence Communities in the fight against drug trafficking, cyber money laundering, human trafficking, terrorism and other criminal activities conducted over today's telecommunications network and the Internet.

ISS World Latin America Program:

Conference Track 1

ISS for Lawful Interception and Criminal Investigations

Conference Track 2

ISS for Mobile Location, Surveillance and Intercept

Conference Track 3

ISS for Intelligence Gathering and Analysis

Conference Track 4

ISS for Cyber Security and Defense

Conference Track 5

Audio, Video and GPS Surveillance

Conference Track 6

Encrypted Traffic Monitoring and IT Intrusion

Conference Track 7

LEA and Intelligence Analyst Training and Product Demonstrations

Tuesday, 24 July 2012

Pre-Conference Training Seminars

Certificate of ISS Technology Training Available Upon Request

Seminar 1

8:30-16:30

Online Social Media and Internet Investigations (Six One Hour Sessions)

Presented By Charles Cohen,

Cohen Training and Consulting, LLC

Charles Cohen also holds the position of Commander, Special Investigations and Criminal Intelligence, **Indiana State Police, USA**

8:30-9:30 **Session 1**

What Investigators & Analysts Need to Know about Online Social Media

This session is for criminal investigators and intelligence analysts who need to understand the impact of online social networking on how criminals communicate, train, interact with victims, and facilitate their criminality.

9:45-10:45 **Session 2**

OSINT and Criminal Investigations

Now that the Internet is dominated by Online Social Media, OSINT is a critical component of criminal investigations. This session will demonstrate, through case studies, how OSINT can and should be integrated into traditional criminal investigations.

11:00-12:00 **Session 3**

Successful Use of Online Social Media in Criminal Investigations

This session is for investigators who need to understand social network communities along with the tools, tricks, and techniques to prevent, track, and solve crimes.

13:00-14:00 **Session 4**

Counterintelligence & Liabilities Involving Online Social Media

Current and future undercover officers must now face a world in which facial recognition and Internet caching make it possible to locate an online image posted years or decades before. There are risks posed for undercover associated with online social media and online social networking investigations. This session presents guidelines for dealing with these risks.

14:15-15:15 **Session 5**

Facebook: Tools, Tricks, & Techniques Investigators Need to Know

While there are over 300 social networking sites on the Internet, Facebook is by far the most populous, with over 800 million profiles. It has roughly the same population as the US and UK combined, making it the third largest country by population. There are over 250 million images and 170 million status updates loaded on Facebook every day. This session will cover topics including Facebook security and account settings, Facebook data retention and interaction with law enforcement, and common fraud schemes involving Facebook.

15:30-16:30 **Session 6**

What Investigators Need to Know about Hiding on the Internet

Criminal investigators and analysts need to understand how people conceal their identity on the Internet. Technology may be neutral, but the ability to hide ones identity and location on the Internet can be both a challenge and an opportunity. Various methods of hiding ones identity and location while engaged in activities on the Internet, provides an opportunity for investigators to

26 July 2012, 9:30 - 12:30

ISS World[®] Latin America

Intelligence Support Systems for Lawful Interception, Criminal Investigations and Intelligence Gathering

24-26 JULY 2012 • BRASILIA, BRAZIL

engage in covert online research while also providing a means for criminals to engage in surreptitious communication in furtherance of nefarious activities. As technologies, such as digital device fingerprinting, emerge as ways to attribute identity this becomes a topic about which every investigator and analyst may become familiar.

Seminar 2

8:30-16:30

Introduction to Audio, Video and GPS Surveillance: Equipment, Tactics and Management

Presented By James Deater, President, T3TECHSYSTEMS

Joseph Messinese Jr., Training Manager, T3TECHSYSTEMS

This one day course will be an introduction to Audio, Video and GPS Surveillance: Equipment, Tactics and Management. Audio Interception investigations and Electronic Surveillance is comprised of highly advanced investigative techniques/tools used by law enforcement and intelligence agencies throughout the United States and abroad. These extremely valuable tools are often not used due to misconceptions and lack of understanding. This one-day course will demonstrate the basics for law

enforcement/intelligence agencies to overcome the fears of utilizing Electronic Surveillance Equipment such as audio interception equipment, pole cameras, ground base camera systems, covert video, thermal cameras, GPS tracking devices, new body wire technology, audio bugging devices and much more to further investigations and intelligence gathering like never before.

Session 1

Camera Systems

Introduction to Miniature Video Surveillance, Covert Video Operational Consideration, Working with IP Video Systems and Transmission Across Internet, Covert Enclosures, Simple Image Only vs. Full Motion Video Systems, Thermal Imaging and Infrared Cameras (FLIR), Pole Mount Cameras and Power Considerations and Motion Sensing Cameras

Session 2

GPS Tracking

Introduction to GPS Tracking Technologies, GPS Tracking and Device Placement, Integration with Cellular Operator Infrastructure and Operations, GPS Unit Cost Considerations, GPS Geofencing and Geolocation and Monitoring Consideration

Session 3

Wireless Technology Considerations

Introduction to Wireless Technologies and Surveillance Considerations, Intelligence Gathering Consideration, Covert Operation and the use of Two Way Radios, Cellular Listening Devices/Audio Bugging Devices: Size and Control and Off Air Monitoring Systems

Session 4

Wiretap Technologies, Audio Collection

Introduction to Wiretap Technologies, Audio Collection devices, PEN Registers, Case Management, Recording Media considerations and Audio/Video evidence procedures and considerations

Session 5

Body wires and Audio Bugging devices

Introduction to Audio/Video Transmitter Considerations – Including New Body Worn Cameras, Covert Operation Consideration, Short vs. Long Range Consideration – Choosing the Correct Technology, Cell Phone Body Wire Considerations – New Technology and Special Accessories for Covert Operations

Suntech Sponsored Workshop • 24 July 2012

Suntechday- Intelligence and Technology in Combating Crime and National Defense

9:30-10:00 Welcome Reception

10:00-10:40

The scenario of illegal communication management within prison facilities

Napoleão Gomes da Silva Filho - CGIN DEPEN

10:40-11:20

Policing the board line and its results: drugs offering decreases

Antônio Mário da Silva Ibanez Filho - Ten. Cel. PM MT

11:20-12:00

The use of technology for crime prevention

Alfredo Deak Júnior- Cel. PM SP

12:00-14:00 Luncheon

14:00-14:40

Combating cyber crimes in Brazil: Challenges and Opportunities

Ivo Peixinho - Perito Criminal PF / Carlos Eduardo Miguel Sobral - Delegado PF

14:40-15:20

OSINT- Open Source Intelligence: A new investigation domain

Amanda Silva - Gerente de Canais Suntech

15:20-16:00

The efficient use of tactical solutions to the repression of organized crime

Rodrigo Cunha - Consultor de Telecom Suntech

16:00-16:40

The future of IP intelligence: Unveiling decoding and reconstruction

Rafael Righi - Consultor de Telecom Suntech

16:40-17:00

Event Wrap-up

Separate Workshop Registration Required

Workshop open to Suntech customers and law enforcement only. To register contact: Juliano Vasconcelos, Marketing Manager, juliano.vasconcelos@suntech.com.br

Session 6

Management of Intelligence and Other Surveillance Options

Introduction to Portable Surveillance Systems – Quick Deployment Units, Drug and Explosive Detection, Intelligence Gathering and Crowd Control, Real Time Aerial Surveillance Operations, Building and Parking Lot Monitoring and Secure In-Vehicle Storage Systems and Sensor Systems for Remote Monitoring

Seminar 3

8:30-16:30

Understanding ISS Technologies and Products Deployed in Telecommunications Networks for Law Enforcement and Intelligence Analysis

Presented By: Dr. Jerry Lucas, President, *TeleStrategies*

This one day pre-conference seminar covers the spectrum of ISS Technologies and Products deployed in today's fixed wire, mobile wireless and Internet Service Provider networks. This all day seminar is ideal for those law enforcement, public safety and intelligence analysts who need an understanding of the ISS technologies to be discussed in the conference sessions and the ISS products displayed at the exhibit hall as well as an understanding of the buzz words and jargon used by telecom operator engineers.

8:30-10:45

Understanding Wireline Telecom

Infrastructure, Interception and Related ISS Products What do LEAs need to know about the public switched telecommunications networks, circuit switching, fiber optics, SS7/SDH, DSL, billing systems and call detail records, standards for lawful intercept, basic LI elements (access, delivery and collection function), call information, call content data collection, and where are ISS products deployed for monitoring and intercept.

11:00-14:00

Understanding Mobile Wireless Infrastructure, Interception and Related ISS Products

Infrastructure basics (GSM, GPRS, EDGE, UMTS, HSPA and LTE), Wi-Fi, WiMax and Femtocells, How a cellular call is processed, back office infrastructure, HLR, VLR, Backhaul and PSTN interconnection, data services, SMS, MMS, IM, data services, fixed/mobile convergence and IMS and where are ISS products deployed for monitoring and intercept.

14:15-16:30

Understanding the Internet, Interception and Related ISS Products

What Investigators Have To Know about IP call Identifying Information, Radius, DHCP, DNS, etc. and Tracking an Internet Address to a Source, Investigations Involving E-Mail, Facebook, Twitter, Skype, Instant Messaging, Chat Rooms and Message Boards, IMS, P2P Networks and Deep Packet Inspection and

what can be done to address Internet intercept deploying ISS infrastructure and where are ISS products deployed for monitoring and intercept.

Wednesday, 25 July 2012

8:15-8:30

Welcoming Remarks

Tatiana Lucas, ISS World Program Director, *TeleStrategies*

8:30-9:00

Top Ten Internet Challenges Facing Law Enforcement and the Intelligence Community and Who at ISS World Latin America has Solutions

Dr. Jerry Lucas, President, *TeleStrategies*

Track 1

ISS for Lawful Interception and Criminal Investigations

This track is for Telecom Operators and Law Enforcement/Intelligence/Defense Analysts who are responsible for specifying or developing lawful intercept network infrastructure.

Wednesday, 25 July 2012

9:00-9:30 **Session A**

Gathering Intelligence in Preparation for High Profile Events: Super Bowl 2012 Case Study

This session will highlight both how online social media is being exploited for criminal purpose and how it can be used by law enforcement at various key points during high profile event preparation.

Charles Cohen, *Cohen Training and Consulting, LLC*

Charles Cohen also holds the position of Commander, Special Investigations and Criminal Intelligence, *Indiana State Police, USA*

9:00-10:00 **Session B**

The ultimate concept on monitoring centers: IP decoding and reconstruction

Rafael Righi - Consultor de Telecom, *Suntech (LEA and Government Attendees Only)*

11:00-11:30 **Session A**

LTE: Evolution and Challenges

Fabiano Wiggers, Director Business Development, *AQSACOM*

11:00-11:30 **Session B**

Tactical Interception and Intelligence Gathering of "Nextel" (iDEN) Networks

Ronen Yashvitz, Co-CEO, *Gita Technologies*

14:00-14:30

Different perspectives, same case – a dynamic approach to case management

Elbit Systems Land and CAI Speaker to be announced

14:30-15:00

LTE: Evolution and Challenges

Luis Alves, Senior Director Business Development, *AQSACOM*

15:30-16:00

LTE and legacy technologies: lawful interception in the future networks

Wagner Machado - Gerente de Produto *Suntech*

16:00-16:30

LI: a Countrywide solution

Pasquale De Rinaldis, Sales Manager, *IPS*

Track 2

ISS for Mobile Location, Surveillance and Intercept

This track is for Law Enforcement, Interior Security and the Intelligence Community Authorities who must work with cellular and mobile satellite operators regarding mobile location, surveillance and intercept as well as analysis of mass geo-location data.

Wednesday, 25 July 2012

9:00-9:30

Using Mobile Phone Intelligence to Identify, Locate, and Fight Crime

TruePosition speaker to be announced

9:30-10:00

Practical solutions for Cellular Tracking and localization. Vehicle based solutions

NeoSoft AG speaker to be announced

11:00-11:30

High Accuracy Mass Geo-Location: Polaris WLS vs Competing Technologies.

Polaris Wireless speaking to be announced

11:30-12:00

Revolutionizing Mobile Forensic

Cellebrite presenter to be announced

14:00-15:00

High accuracy location intelligence technologies

Alexandre Castro - Diretor de Novos Negócios *Suntech*

(LEA and Government Attendees only)

15:30-16:00

Hunting your targets – The next generation of cellular location finding

Ronen Yashvitz, Co-CEO, *Gita Technologies*

Thursday, 26 July 2012

8:30-9:30

IMSI/IMEI Catcher. InPoint SMS system - Mass Emergency Notification. Tactical experience, challenges and solutions

Gunter Knall, Technical Project Manager, *Neosoft AG*

10:30-11:00 **Session A**

Active, Passive and Hybrid GSM & 3G Monitoring systems. Practical solutions and overcoming

NeoSoft AG speaker to be announced

10:30-11:30 Session B

Polaris Wireless Altus High-Accuracy Location Surveillance Application

Overview and Demonstration featuring border control, kidnapping, and drug smuggling use cases

Polaris Wireless speaker to be announced (LEA and Government Attendees only)

Track 3:

ISS for Intelligence Gathering and Analysis

This track is for Intelligence Analysis and Law Enforcement agents who have to "connect the dots" between people, places and other entities by searching through massive amounts of data from various sources using visual analytics, semantic technologies, data mining, OSINT and other intelligence gathering tools and techniques.

Tuesday, 24 July 2012

8:30-16:30

Online Social Media and Internet Investigations (Six One Hour Sessions)

Presented By Charles Cohen, *Cohen Training and Consulting, LLC*
Charles Cohen also holds the position of Commander, Special Investigations and Criminal Intelligence, *Indiana State Police, USA*

8:30-9:30: **Session 1**

What Investigators & Analysts Need to Know about Online Social Media.

9:45-10:45: **Session 2**

OSINT and Criminal Investigations

11:00-12:00: **Session 3**

Successful Use of Online Social Media in Criminal Investigations

13:00-14:00: **Session 4**

Counterintelligence & Liabilities Involving Online Social Media

14:15-15:15: **Session 5**

Facebook: Tools, Tricks, & Techniques Investigators Need to Know.

15:30-16:30: **Session 6**

What Investigators Need to Know about Hiding on the Internet

Wednesday, 25 July 2012

9:00-9:30

Gathering Intelligence in Preparation for High Profile Events: Super Bowl 2012 Case Study

This session will highlight both how online social media is being exploited for criminal purpose and how it can be used by law enforcement at various key points during high profile event preparation.

Charles Cohen, *Cohen Training and Consulting, LLC*

9:00-9:30 **Session B**

11:00-12:00 **Session A**

Internet and Social Networks - Intelligence Solutions for this environment

Amanda Silva, Gerente de Canais, *Suntech* (LEA and Government Attendees Only)

11:30-12:00 **Session B**

Codename: Da Vinci. Attack, control and gather intelligence from personal devices.

David Vincenzetti, Partner, *Hacking Team*

14:00-14:30

Arabic Media influence cycle: case study

How the Egyptian media covered the Muslim Brotherhood before, during, and after the revolution

Mohamed Elewa, *NOSIC Senior Technical Director, AGT Advanced German Technology*

14:30-15:00

Social Networks: the Https Challenges

Cristian D'Incertopadre, Sales Manager, *IPS*

15:30-16:30

Wise Intelligence Technology (WiTTM) – a comprehensive Intelligence and Investigation solution demo

Elbit Systems Land and *C4I* Speaker to be announced (LEA and Government Attendees Only)

Thursday, 26 July 2012

8:30-9:30 **Session A**

Network Critical Infrastructure Suite

Pasquale De Rinaldis, Sales Manager, *IPS*

8:30-9:30 **Session B**

Wise Intelligence Technology (WiTTM) – a comprehensive Intelligence and Investigation solution demo

Elbit Systems Land and *C4I* Speaker to be announced (LEA and Government Attendees Only)

10:30-11:30

A Web Master Key™ for Social Network Monitoring, Interception and Analysis

Cristian D'Incertopadre, Sales Manager, *IPS* (LEA and Government attendees only)

Track 4:

ISS for Cyber Security and Defense

This track is for Law Enforcement, Intelligence Community Executives and Telecom Operators who must deploy DPI and other application decoding platforms to provide real time cyber security and defense.

Wednesday, 25 July 2012

11:00-11:30

Build the Comprehensive Security Line Together

ZTEsec presenter to be announced

11:30-12:00

Leveraging DPI to identify advanced cyber threats

Rafael Righi - *Consultor de Telecom Suntech*

Thursday, 26 July 2012

8:30-9:00

Passive or Active Monitoring

Cristian D'Incertopadre, Sales Manager, *IPS*

9:30-9:00

Track 5:

Audio, Video and GPS Surveillance

This track is for Law Enforcement, Public Safety and Intelligence Community Executives who must deploy electronic surveillance products using audio, video and GPS surveillance technologies.

Tuesday, 24 July 2012

Introduction to Audio, Video and GPS Surveillance: Equipment, Tactics and Management

Presented By James Deater, President, *T3TECHSYSTEMS*, Joseph Messinese Jr., Training Manager, *T3TECHSYSTEMS*

This one-day course will demonstrate the basics for law enforcement/intelligence agencies to overcome the fears of utilizing Electronic Surveillance Equipment such as audio interception equipment, pole cameras, ground base camera systems, covert video, thermal cameras, GPS tracking devices, new body wire technology, audio bugging devices and much more to further investigations and intelligence gathering like never before.

Session 1: Camera Systems

Session 2: GPS Tracking

Session 3: Wireless Technology Considerations

Session 4: Wiretap Technologies, Audio Collection

Session 5: Body wires and Audio Bugging devices

Session 6: Management of Intelligence and Other Surveillance Options

Wednesday, 25 July 2012

9:00-9:30

Covert Miniature Video Surveillance

André Mota, Sales & Marketing Manager, *Covidence*

Track 6:

Encrypted Traffic Monitoring and IT Intrusion Product Training

This track is only open to Law Enforcement, Public Safety and Government Intelligence Community Attendees

Wednesday, 25 July 2012

9:00-10:00

FinFisher - Actively Monitoring Networks, Computer and Mobile Phones

MJM, Gamma Group

14:00-15:00

Governmental IT Intrusion: Applied Hacking Techniques used by Governments

MJM, Gamma Group

15:30-16:30

Codename: Da Vinci. Stealth data collection. Massive target scalability. And an artificial intelligence engine to adapt to hostile environments.

Marco Valleri, Head of R&D, Daniele Milan, Operations Manager, and Alberto Ornaghi, Senior Software Developer, Hacking Team

Thursday, 26 July 2012

10:30-11:30

Codename: Da Vinci. An in-depth, live demonstration of infection vectors and attack techniques.

Marco Valleri, Head of R&D, Daniele Milan, Operations Manager, and Alberto Ornaghi, Senior Software Developer, Hacking Team

Track 7:

LEA and Intelligence Analyst Training and Product Demonstrations

This training is only open to Law Enforcement, Public Safety and Government Intelligence Community Attendees.

24-26 JULY 2012 • BRASILIA, BRAZIL

Lead and Associate Lead Sponsors

AQSACOM is a global leader in Telecommunications Security Solutions, providing real-time Lawful Interception, Data Retention, Mobility Tracking and Surveillance Solutions. AQSACOM's core business focuses upon end-to end, turnkey systems for fulfilling Lawful Interception requirements and specializes in work involving highly heterogeneous networking and service environments. AQSACOM's diverse customer portfolio includes clients from more than 35 countries spanning 5 continents. Regional offices are located in Paris, Dubai, Hyderabad, Melbourne, Florianopolis, and New York City.

Gamma International has developed for Law Enforcement and Intelligence Agencies its own FinFisher IT Intrusion Portfolio, which is a comprehensive range of professional offensive tools for information gathering, sniffing, manipulation and exploitation. FinFisher is proving to be instrumental in the fight against child pornography, cybercrime, pedophilia, human trafficking, drug smuggling, terrorism, and other criminal activities.

HackingTeam provides the premier Cyber Intelligence solution: Remote Control System (RCS). Proven by years of worldwide adoption and designed to fulfill LEAs and Security Agencies higher expectations, RCS gives you total control over endpoint devices. Offering the widest selection of infection vectors and showing total invisibility to protection systems, RCS guarantees easy installation on target devices. An integrated, easy to use Console allows you to manage all of your tasks, from evidence collection to infrastructure management. Newly released RCS version 8, codenamed Da Vinci, introduces a new dimension of cyber investigations: data intelligence. Find out more at www.hackingteam.com

NeoSoft AG is a world-wide known manufacturer of Monitoring security systems such as: Passive, Active (Semi-Active), Hybrid GSM Monitoring systems with A5.2/A5.1 deciphering; CDMA Passive Monitoring systems; IMSI/IMEI Catchers 2G and 3G and InPoint SMS System. All our systems support the following bands: GSM, PCS, EGSM, 2100 and 850. Our systems are widely used for victim detection and recovery during various acts of terrorism and natural disasters.

Polaris Wireless is the global leader in providing high accuracy, software-based geo-location solutions to wireless operators and law enforcement agencies. With commercial deployments in EMEA and APAC regions, our lawful and mass location intercept solutions are ideal for tracking known/unknown targets to within 50 meters including urban and indoor areas.

Suntech, a Verint Company, is a leading solution provider for Telecommunications, Security, Intelligence and Defense Government Agencies. Verint is a leader in communications and cyber intelligence solutions that help law enforcement, national security, intelligence, and other government agencies detect, investigate, and neutralize criminal and terrorist threats.
