TeleStrategies®

ISS World MEA
 Intelligence Support Systems for Lawful Interception, Criminal Investigations and Intelligence Gathering

13-15 FEBRUARY 2012  •  JW MARRIOTT  •  DUBAI, UAE

Where Telecom Operators, Law Enforcement, Defense and the Intelligence Community Turn to Learn and Network

Lead Sponsor

trovicor

Associate Lead Sponsors

Polaris Wireless  ×  emptied  ×  ultimaco ×  YUPEN security  ×  ZTEsec

Exhibitors and Sponsors

95 LEA/Interior/DoD Training Sessions and Courses to Choose From
ISS World MEA is the world’s largest gathering of Middle East, Central Asia and African Law Enforcement, Intelligence and Homeland Security Analysts as well as Telecom Operators responsible for Lawful Interception, Hi-Tech Electronic Investigations and Network Intelligence Gathering.

ISS world Programs present the methodologies and tools for law enforcement, public safety and government intelligence communities in the fight against drug trafficking, cyber money laundering, human trafficking, terrorism and other criminal activities conducted over today’s telecommunications network and the Internet.

ISS World MEA Program

Conference Track 1
ISS for Lawful Interception and Criminal Investigations

Conference Track 2
ISS for Social Network Monitoring and Investigations

Conference Track 3
ISS for Mobile Location, Surveillance and Intercept

Conference Track 4
ISS for Intelligence Gathering and Analysis

Conference Track 5
Encrypted Traffic Monitoring and IT Intrusion Product Demonstration and Training

Conference Track 6
Social Network Monitoring and Investigation Product Demonstration and Training

Conference Track 7
Mass Data Monitoring, Intercept and Analysis Product Demonstration and Training

Pre-Conference Training Seminars

Monday, 13 February 2012

Seminar #1: 8:30-16:30
Understanding ISS Technologies and Products Deployed in Telecommunications Networks for Law Enforcement and Intelligence Analysis
Presented By: Dr. Jerry Lucas, President, TeleStrategies
This one day pre-conference seminar covers the spectrum of ISS Technologies and Products deployed in today’s fixed wire, mobile wireless and Internet Service Provider networks. This all day seminar is ideal for those law enforcement, public safety and intelligence analysts who need an understanding of the ISS technologies to be discussed in the conference sessions and the ISS products displayed at the exhibit hall as well as an understanding of the buzz words and jargon used by telecom operator engineers.

8:30-10:45
Understanding Wireline Telecom Infrastructure, Interception and Related ISS Products
What do LEAs need to know about the public switched telecommunications networks, circuit switching, fiber optics, SS7, SS7SDH, DSL, billing systems and call detail records, standards for lawful intercept, basic LI elements (access, delivery and collection function), call information, call content data collection, and where are ISS products deployed for monitoring and intercept.

10:45-14:00
Understanding Mobile Wireless Infrastructure, Interception and Related ISS Products
Infrastructure basics (GSM, GPRS, EDGE, UMTS, HSPA and LTE), Wi-Fi, WiMax and Femtocells, How a cellular call is processed, back office infrastructure, HLR, VLR, Backhaul and PSTN interconnection, data services, SMS, MMS, IM, data services, fixed mobile convergence and IMS and where are ISS products deployed for monitoring and intercept.

14:15-16:30
Understanding the Internet, Interception and Related ISS Products
What Investigators Have To Know about IP call Identifying Information, Radius, DHCP, DNS, etc. and Tracking an Internet Address to a Source, Investigations Involving E-Mail, Facebook, Twitter, Skype, Instant Messaging, Chat Rooms and Message Boards, IMS, P2P Networks and Deep Packet Inspection and what can be done to address Internet intercept deploying ISS infrastructure and where are ISS products deployed for monitoring and intercept.

Seminar #2: 8:30-16:30
Understanding Mobile Spyware for Law Enforcement and Intelligence Analysts
Thomas J. Slovenski, CCFE, Owner, Cellular Forensics
Rick Mislan, Cyber Forensics Professor, Purdue University says “this class will rock your world!” Tired of the same old dry instructional workshops that are less exciting than watching paint dry? Well this one is very different! Law Enforcement Instructor Tom Slovenski is dedicated to make sure this class is one of the most exciting you will get! With his own unique and exciting presentation, Tom will take you into the world of mobile phone spyware. In this 8

Exhibits
14 February 2012, 10:00 - 17:00
15 February 2012, 9:30 - 12:30
hour journey into the center of the beast, you will experience what took Tom years to learn. And, Tom will supply you with all the instruction you will need to locate, analyze, preserve and eradicate mobile spyware in the mobile phone of today.

Seminar Topics:
- The Truth about Mobile Spyware
- Types of Spyware
- Signs of Mobile Malware on a Cell Phone
- Names of Available Software in Existence Today
- How Mobile Spyware Infects a Phone
- Different Degrees of Spyware
- Infection Techniques
- Eradication Techniques
- Catching the Hacker
- The U.S. and International Laws Affecting the Use of Mobile Spyware

This seminar is only open to law enforcement, intelligence analysts and defense personnel.

Seminar #3: 8:30-16:30
Advanced IP Intercept Training Seminar
Presented By: Klaus Mochalski, VP Market Development, ipoque and Jens Geier, Product Manager, ipoque

8:30-10:45
Understanding TCP/IP for Packet Sniffing and Traffic Analysis

11:00-14:00
Deep Packet Inspection (DPI) Basics for LEA’s, Intelligence Analysts and Telecom Operators

14:15-16:30
Basics of IP Application Decoding

Track 1
ISS for Lawful Interception and Criminal Investigations
This track is for Law Enforcement, National and Interior Intelligence and Public Safety Authorities who are responsible for specifically what telecom operators must deploy to intercept, retain and hand off intercept data in support of lawful interception and hi tech criminal investigations.

Tuesday, 14 February 2012
11:00-11:30
SESSION A
Integrated Solution for National Security and Crime Investigation – Our Focus
Tan Wei, ZTEsec
11:00-11:30  **SESSION B**
Intelligence Solutions for LEAs—New Trends  
Head of Sales, **trovicor**

11:00-11:30  **SESSION C**
The iipoque Internet Observatory—Measuring the Internet  
Klaus Mochalski, VP Market Development, iipoque, A Rohde & Schwarz Company

11:30-12:00  **SESSION A**
Not Able to Monitor HTTP and Other Secured IP Communications? Do Active Interception  
ClearTrail Technologies speaker to be announced

11:30-12:00  **SESSION B**
Intelligence Gathering and Analysis for Next Generation  
HUAWEI presenter to be announced

11:30-12:00  **SESSION C**
Managed the Flood  
Jeff Zindel, Glimmerglass Networks

13:30-14:00  **SESSION A**
LI in Clouds—Challenges & Possible Opportunities for Providers & LEAs  
Rudolf Winschuh, Partner Sales Manager Utimaco LIMS

14:00-14:30  **SESSION A**
Spam, SPIT, Secrets—Do You Know What Leaves Your Network?  
ATIS systems presenter to be announced

14:00-14:30  **SESSION B**
Block the ‘Bad’ Network Traffic  
George Chen, CEO, Semptian Technologies

15:00-15:30  **SESSION A**
Converging Networks, Exploding Bandwidth, Complex Communications and Simplified MASS MONITORING  
ClearTrail Technologies speaker to be announced

15:00-15:30  **SESSION B**
Context-Based Data Retention Using Multi-Source Collection & Correlation  
Steve Wallbank, Vice President, International Sales, Bivio Networks

15:30-16:00  **SESSION B**
Revolution or Evolution? How Will Convergence of Telecommunication Services Affect Your LI System  
Jaroslaw Tabor, R&D Engineer, Macro-System

15:30-16:00  **SESSION C**
A New Way of Supporting LEA in Lawful Interception Activities  
Paolo Mario Finzi, Vice President, RCS S.p.A.

16:30-17:00  **SESSION A**
Multi-Source Collection & Correlation for Context-Based Data Retention  
Bob Wiest, Vice President, Technical Services, Bivio Network

---

**Wednesday, 15 February 2012**

10:30-11:00  **SESSION A**
Rich Communication Suite  
Sven Jonas, Project Manager, Utimaco LIMS

11:00-11:30  **SESSION A**
The Art of Selection Among Tactical and Strategic LI Solutions  
Cezary Jachniewicz, Marketing Manager & Jaroslaw Tabor, R&D Engineer, Macro-System

11:00-11:30  **SESSION B**
Paradigm Shift  
Bernd Schilp, Glimmerglass Networks

11:00-11:30  **SESSION B**
Scalable Network Intelligence for LI  
Dr. Ismail Uzun, C2Tech

12:00-12:30  **SESSION B**
Collect & Retain Your Communications Network Data—Efficiently & At Lowest Cost  
Julian Cook, GM EMEA & APAC, RainStor

12:00-12:30  **SESSION B**
Challenging the IP Interception Problem: Know Your Enemy, Use the Right Weapon!  
Murat Balaban, President, Inforcept Networks

---

**Track 2**

**ISS for Social Network Monitoring and Investigations**  
This track is for Law Enforcement, Intelligence and Public Safety Authorities who are responsible for cyber investigations, monitoring, analysis and creating actionable intelligence from today’s social networks including Facebook and Twitter. Note some of these sessions denoted by “LEA and Intel Only” are only open to Law Enforcement, Public Safety and the Government Intelligence Community.

---

**Tuesday, 14 February 2012**

11:00-11:30  **SESSION A**
Cyber Investigation on Social Network  
Ugo Santillo – International Operations, **IPS**

11:30-12:00  **SESSION A**
Intelligence Monitoring & Analysis of Social Networks—An Introduction  
Product Manager, **trovicor**

13:30-14:00  **SESSION B**
Monitoring Social Networking Sites for Actionable Intelligence  
Nanda Kumar, Director, **Paladion**

13:30-14:30  **SESSION B**
Social Network Monitoring and Analysis—How To Gain New Insights  
Product Manager, **trovicor** This Session only open to Law Enforcement and Intelligence Analysts

14:00-14:30  **SESSION B**
Probing the Mobile IP Networks: An Effective Approach to Web Mass Interception  
Simone Benvenuti, Solution Architect, RCS S.p.A.

13:30-14:30  **SESSION B**
Forensics of Web 2.0 Applications and Social Networks  
ATIS systems present to be announced This Session only open to Law Enforcement and Intelligence Analysts

15:00-16:00  **SESSION A**
A Web Master Key™ for Social Networks Monitoring, Interception and Analysis  
Ugo Santillo, International Operations, **IPS** This Session only open to Law Enforcement and Intelligence Analysts

10:30-11:30  **SESSION B**
Social Network Monitoring and Analysis—How To Gain New Insights  
Product Manager, **trovicor** This Session only open to Law Enforcement and Intelligence Analysts
### Track 3
**ISS for Mobile Location, Surveillance and Intercept**

This track is for Law Enforcement, Interior Security and Intelligence Community Authorities who must work with cellular and mobile satellite operators regarding mobile location, surveillance and intercept as well as analysis of mass geo-location data.

**Tuesday, 14 February 2012**

| **Law Enforcement/DHS/IC/DoD Registration** | ISS World Conference (Tracks 1 to 4), Training Tracks 5-7, Pre-Conference Seminars plus Exhibits | $995 |
| Registration after 13 January 2012                                                   |                                                                          | $1,295 |

| **Vendor Registration** | ISS World Conference (Tracks 1 to 4), Pre-Conference Seminars and Exhibits | $1,995 |
| Registration after 13 January 2012                                                   |                                                                          | $2,295 |

*Note: To Attend the LEA/DHS/IC/DoD Training Tracks 5-7 you must be a sworn law enforcement officer or military/intelligence/government employee. Also you must register by 10 February 2012 in order to verify eligibility. Government photo ID required for Tracks 5-7 classroom access.*

**Free Colleague Registration:** Register as paid and you can invite a colleague to join you at ISS World MEA with a full, free conference pass. If you have not identified your guest at this time, just enter “guest of” followed by your name and complete with your contact information. You can register your guest at no charge at a later time.

**Conference and Exhibitions: JW Marriott Hotel Dubai.**
To reserve a room go to http://cwp.marriott.com/dxbae/issworlddubai or call 971 42624444.

**International Attendees:** If you need Visa assistance to attend ISS World, please contact Tatiana Lucas at talucas@telestrategies.com

**Conference by Invitation Only:** To attend ISS World you must be a Telecommunications Service Provider, government employee, LEA or vendor with LI, surveillance or network products or services. If you have questions e-mail Tatiana Lucas at talucas@telestrategies.com.
trovicor is an established leading supplier of intelligence solutions for Law Enforcement and Government Agencies, worldwide. The company represents almost two decades of industry experience in customer-centric development of state-of-the-art monitoring centers and intelligence tools for the security market. With in-depth knowledge of the public sector requirements and 170 highly qualified experts, worldwide, trovicor designs and manufactures many and varied lawful interception solutions for the most sophisticated applications in Communication Surveillance. Headquartered in Munich, Germany and with affiliate offices in Europe, Middle East, Asia-Pacific, trovicor services Law Enforcement and Government Agencies with deployments in more than 100 countries. These turn-key solutions are based on trovicor’s own innovative cores and designed for integrating best-in-class third party products providing the most fil eXible platform for the apprehension of criminals. The trovicor Monitoring Center systems completely developed in-house are a state-of-the-art solution to monitor, analyse and store all data acquired during investigation activities, such as the interception of communication data in fixed and mobile networks, to Next Generation Networks and the Internet.

**Associate Lead Sponsors**

Al Fahad Group: Confidentiality and integrity-of-secrecy are not “givens” in LI, these are values to be exercised and executed in perpetude. We have therefore been recognizing exponential growth over the last 5 years in providing national security solutions ranging from Interception, mediation, comprehensive protocol decoding including webmail and web 2.0 services; evidence processing, forensics, fraud detection, surveillance and cyber intelligence. Across our operations in the Middle East, North Africa and Europe, Our accurate assessment of intelligence needs enable us to deploy adaptive solutions, fully integrated end to end, providing Active In-Line control and applied to serve your directive.

ClearTrail is leading provider of communication monitoring solutions to LEAs, Intelligence Agencies and Telecom carriers worldwide. Our solutions are deployed across hundreds of communication links and empower agencies to: Mass Intercept GSM/CDMA/PSTN, GPRS, EDGE, 3G/3.5G, Wi-Max, VSAT, & IP links; Analyze vast amount of information; Monitor Wi-Fi networks and replay HTTPS sessions; Deliver Trojans remotely & locate targets; Monitor GSM calls “Off-The-Air”

Gamma International has developed for Law Enforcement and Intelligence Agencies its own FinFisher IT Intrusion Portfolio, which is a comprehensive range of professional offensive tools for information gathering, sniffing, manipulation and exploitation. FinFisher is proving to be instrumental in the fight against child pornography, cybercrime, pedophilia, human trafficking, drug smuggling, terrorism, and other criminal activities. For more information contact: info@gammagroup.com.

HackingTeam provides the premier Cyber Intelligence solution: Remote Control System (RCS). Proven by years of worldwide adoption and designed to fulfill LEAs and Security Agencies higher expectations, RCS gives you total control over endpoint devices. Offering the widest selection of infection vectors and showing total invisibility to protection systems, RCS guarantees easy installation on target devices. An integrated, easy to use Console allows you to manage all of your tasks, from evidence collection to infrastructure management. Newly released RCS version 8, codenamed Da Vinci, introduces a new dimension of cyber investigations: data intelligence. Find out more at www.hackingteam.com

HUAWEI is a leading telecom solutions provider with products and solutions deployed in over 100 countries. By leveraging its network security experience, Huawei helped governments worldwide to build a green network since ten years ago. With professional consulting, training, and services, Huawei has built an excellent reputation worldwide.

Polaris Wireless is the global leader in providing high accuracy, software-based geo-location solutions to wireless operators and law enforcement agencies. With commercial deployments in EMEA and APAC regions, our lawful and mass location interception solutions are ideal for tracking known/unknown targets to within 50 meters including urban and indoor areas.

NeoSoft AG is a world-wide known manufacturer of Monitoring security systems such as: Passive, Active (Semi-Active), Hybrid GSM Monitoring systems with A5/2/A5;1 deciphering, CDMA Passive Monitoring systems, IMSI/IMEI Catchers 2G and 3G and InPoint SMS System. All our systems support the following bands: GSM, PCS, EGS, 2100 and 850. Our systems are widely used for victim detection and recovery during various acts of terrorism and natural disasters.

Semptian Technologies Ltd was founded in 2003 with headquarters in Shenzhen China and is a private company enabling continuous technical innovation. Semptian is positioned as a cyber monitoring expert, providing the technical LI means to intercept Internet, PSTN fixed telephone and mobile phone networks. With high performance and low cost solutions, Semptian helps Law Enforcement Agencies accomplish their missions such as criminal investigation, counter-terrorism, intelligence gathering and network security. www.semtian.com

With more than 180 installations in about 70 countries, Utimaco is a leading global supplier in the lawful interception market. Since 1994 Utimaco has been providing lawful interception systems for mobile and fixed network operators and Internet service providers. In addition at the request of telecom customers for an integrated lawful interception and data retention solution, Utimaco introduced the Data Retention Suite corresponding to the EU directive 2006/24/EC. For more information visit http://lms.uitmaco.com

VUPEN is the leading provider of IT intrusion and offensive cyber security capabilities. VUPEN provides private and highly sophisticated exploits (attack/infection vectors) specifically designed for the Intelligence community, LEAs, and national security agencies to help them remotely and covertly install any monitoring software on target computers, laptops, and mobile devices during lawful intercept and criminal investigation missions. VUPEN’s industry-recognized vulnerability research and exclusive exploits target a wide range of software and operating systems, take advantage of undisclosed “zero-day” vulnerabilities, and bypass all modern security protections and exploit mitigation technologies such as DEP, ASLR, sandboxes and Antivirus products. For more information: http://www.vupen.com

ZTEsec is a subsidiary company of ZTE Corporation which is a major player in the worldwide telecom market. ZTEsec was founded in 2003 and focusing on R&D for network security and surveillance solution to our customers. Our company is also encouraging high efficiency and innovation, which also plays a lot of attention to realize the value of society, customers and staff.
